Lending Corner by Mike

A new year brings an amazing money saving offer from Evergreen Credit Union. I am excited to announce **the lowest loan rates in Evergreen Credit Union's history and the lowest loan rates in the area!**

Our current loan special is a fixed rate of 3.50% APR* for up to 36 months on secured loans. Do you need longer than 36 months to pay? We have fixed rate vehicle loans as low as 3.99% APR* with up to 60 months to pay! Those rates are great, but would you like to pay even less interest and potentially be able to write the interest off on your taxes? We have home equity lines of credit (HELOCs) with rates as low as 3.25% APR**.

Like I said, these are the lowest loan rates out there! If you have loans at other financial institutions, then you have loans with higher interest rates. Don't miss this opportunity to save big in 2010 and beyond!

Mrs. GREENJeans Says . . .

Many people find a growing desire to live green, even as they struggle with the reality of higher prices. How do you make the switch to greener *and* healthier living?

For many people, the grocery store is an easy place to begin. Pre-packaged food is less healthy, more wasteful in terms of excessive packaging, and more costly than fresh food. A fresh lean chicken breast, a bag of fresh romaine lettuce, some rice and a bunch of broccoli is not only healthier, it goes a lot farther than spending the same amount of money on frozen food or restaurant food.

Try this green living experiment for one week and see how you fare: Shop only around the periphery of the grocery store where the fresh food is located. Don't buy ANY canned food, frozen food or pre-packaged meal-in-a-box type dinners. If you are pressed for time, cook meals ahead of time and refrigerate them for the next day. At the end of the week evaluate how you did with your shopping and eating habits. Chances are you created less plastic and cardboard garbage, ate healthier and saved a bit of money in the process.
