DEBIT CARD FAQs

Should I choose credit or debit at the checkout?

If you need cash back, choose debit. If no cash is needed, choose credit.

If I choose credit at the checkout, isn't that the same as using a credit card?

No, by choosing credit with your debit card, the funds still come out of your checking account.

When should I use my PIN?

Use your PIN when you choose debit, you need cash back, or you are activating a new or replacement debit card. With credit, you won't need your PIN; instead, you'll sign the keypad or receipt. Choosing credit will not reduce the number of free ATM withdrawals you can make per month. It's a good idea to only choose debit when you need cash back.

Do I need to worry about my debit card being declined when making a larger purchase?

If you are making a larger purchase, choosing credit gives you a daily limit of \$2,000. Choosing debit gives you a daily limit of \$612 – another good reason to primarily choose credit.

EVERGREEN CREDIT UNION AWARDED FIRST PLACE
